

ALTIN MORINA

WEB & MOBILE APP DEVELOPER

Finished Second-Year of studies on field of Web & Mobile App Development. With a passion for frontend and backend development, I'm skilled in designing and building web applications using modern frameworks and technologies. Proficient in languages such as Java, JavaScript, HTML&CSS, PHP, Python. Frameworks: Vue.js and Springboot. Eager to apply problem-solving abilities and technical knowledge to real-world projects.

PROJECTS

MOVIES & TV SHOWS STREAMING PLATFORM

www.shahflix.net

A platform where users can browse and watch thousands of movies and tv shows. It has many smart features to help users find their favourite content.

Built using React for frontend and node for backend

BUSINESS WEBSITE

www.algenti.com

This website was built as a showcase of the work of this business. It has been designed and built in detail, with a unique and clean design to make the page as easy to read as possible.

RESTAURANT MANAGEMENT SYSTEM

Local Only – Not Deployed

A system equipped with dashboard, tables, orders, menus, to make it as easy as possible for the restaurant to manage tables and orders. For each table you can add orders with menu items, you can also arrange the tables visually with drag and drop.
