Personal Summary

I am graduate in Network and Systems Administration, with strong knowledge in configuring, maintaining, and securing computer networks, as well as administering Windows and Linux servers. During my studies, I gained hands-on experience with technologies such as VLAN, OSPF, EIGRP, DHCP, DNS, VPN, Hyper-V, VMware, and Office 365. I have solid problem-solving skills and am comfortable using technical terminology in English, both written and spoken. I am motivated to apply my knowledge in a professional environment and further develop my career in the IT field.
