PERSONAL STATEMENT

Web and Mobile Development Graduate from Cactus Education, with a focus on Machine Learning and Data Science. Proficient in Python and SQL, and interested in building intelligent, data-driven applications in the future.

EDUCATION

CACTUS EDUCATION
October 2024 – June 2026
Web and Mobile Application Development

Relevant Coursework: Data Science,
Artificial Intelligence, SQL

SKILLS

- **Languages:** Python, SQL, Java.
- **Libraries/Frameworks:** Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming (OOP)
- **Analytical Strengths:** Advanced Pattern Recognition, Logical Reasoning, Mathematical Analysis.
- **Soft Skills:** Fast Learner, Technical Writing, Problem-solving.

AWARDS / CERTIFICATES

- CISCO – IT Essentials
- 1st Place, City Mathematics Competition (Podujevë) - 2022

PROJECTS

Stock Market Movement Predictor & Web App | [<https://github.com/MirlindArifi/StockProject>]

- Developed a binary classification model to predict whether Apple (AAPL) stock price will close up or down the following day.
- Built an end-to-end pipeline in Python to preprocess historical daily stock data, handle time-series formatting, and engineer features using Pandas and NumPy.
- Implemented and trained classification models (Scikit-Learn) to establish a predictive baseline.
- Created an application interface (app.py) to serve the model, demonstrating the transition from experimental notebook (.ipynb) to functional software.
