PROFILE

Motivated Web Application Development professional with around 1.5 years of hands on development experience building modern, scalable full-stack applications. Comfortable across frontend and backend, with hands on experience in Next.js, React, and Spring Boot. Focused on clean architecture, typed APIs, and shipping production quality features.

EXPERIENCE

Cactus

Jul 2026 – Present

Frontend Developer — Intern

React

- Contributing as a frontend developer intern on an agriculture-focused platform, building and maintaining UI features with React.
- Implemented and refined UI components and page flows, focusing on usability and consistent user experience.
- Collaborated with the team to translate product requirements into working frontend features.

KosovaLive

Jan 2026 – Jun 2026

Full-Stack Developer — LiveTech News & CMS Platform

Next.js (App Router), TypeScript, Tailwind CSS, TanStack Query, Spring Boot, PostgreSQL

- Developed a full-stack news and content management platform with role-based dashboards for journalists, editors, and admins.
- Implemented JWT authentication with route guards, a centralized typed API client, and a custom data-fetching layer over a Spring Boot REST backend.
- Built an editorial workflow state machine (draft → submitted → in review → published/rejected) and internationalized routing (English/Albanian).
- Integrated TanStack Query with typed query keys and cache invalidation; hardened the backend against N+1 queries and added audit logging.

Freelancer

Jun 2025 – Dec 2025

Backend Developer — MyFinanceHub Personal Finance Application

Spring Boot, PostgreSQL, Spring Security, Thymeleaf

- Built a full-stack finance system with role-based authentication and a layered MVC architecture.
- Developed REST APIs using the DTO pattern with Docker containerization.

Freelancer

Feb 2025 – Jun 2025

Full-Stack Developer — Still Note-Taking Application

Spring Boot, MySQL, Thymeleaf

- Built a note-taking app with auto-save (AJAX), shareable URLs, and RESTful endpoints.
- Designed a service-layer architecture deployed with Docker Compose.

SKILLS

FRONTEND	React · Next.js · Vue.js · Bootstrap · JavaScript · HTML & CSS
BACKEND	Node.js · REST API · Spring Boot · Java
DATA	SQL · MySQL · PostgreSQL
TOOLS	Docker · Git & GitHub
