

Trit Meri

Network Engineer

About Me

I am a Highly motivated aspiring Network Engineer with a strong academic foundation in Cyber Security and a passion for infrastructure reliability. I have gained practical exposure to large-scale network architectures through a specialized training program at a Service Provider, where I developed a very basic, foundational understanding of MPLS, BGP, and IS-IS. Combined with proficiency in OSPF and Linux-based network simulation, I am eager to bring my technical curiosity and disciplined work ethic to a professional operations team.

Technical Skills

- Networking & Infrastructure
Routing Protocols: OSPF, IS-IS (Foundational), BGP (Basics)
Service Provider Tech: MPLS (L3VPN basics)
Tools & Environments: GNS3, Wireshark, Linux CLI
Virtualization: Containerization (Podman, Docker)
- Cloud & OS: Azure Fundamentals, Linux Administration (Bash/CLI), Windows Server
- Vulnerability: Penetration Testing basics, Network Scanning, Traffic Analysis

Languages

- Albanian
- English

Education

● (2024 - 2026)

Cactus Education
Cyber Security

● (2020 - 2023)

Qendra e Kompetencës "11 Marsi" - Prizren
IT Technician

● Certifications

- Introduction to Cyber Security - Cisco Network Academy
- IT Essentials - Cisco Network Academy
- CCNA: Switching, Routing, and Wireless Essentials
- CCNA: Introduction to Networks
- CCNA: Enterprise Networking, Security, and Automation
